

Heavy duty incremental encoder

- Ø 58 mm
- 6 or 10 mm shaft with face
- Enlarged sturdy bearings
- 2 square wave signals
- Inverted signals, depending on connection
- 7 – 35 V power supply
- Short circuit and reversed polarity proof
- Transient proof
- Max resolution 20 000 at 5 000 lines/rev
- Ingress protection class IP67
(IP66 att shaft inlet)

Conforms to european EMC directive
89/336/ECC standards:

EN61000-6-4 Emission in industrial environment
EN61000-6-2 Immunity in industrial environment
